

PRODUCT INFORMATION

HI- COOL C:-

- Engine Coolant, HI-COOL C, also known as antifreeze, is mixed with water to keep the radiator from freezing in extreme cold and overheating in extreme heat. There are many different types of coolant, so it's important to know what variety is right for your car or truck.
- Since Coolant technology has evolved so much in the last few decades, you need a formula with a special additive to allow chemistries old and new to work together. Multi-vehicle Antifreeze/Coolant helps extend the life of higher mileage vehicles with special additives to keep radiator working properly without rusting.

SPECIFICATIONS	PROPERTIES
Appearance	Dark Green
Boiling Point	160°C
Specific Gravity	1.13 - 1.15
pH of 30% Soln.	7.5 – 8.0
Freezing Point	
i) 80% v/v soln.	-35° C
ii) 30% v/v Soln.	-15° C
Foaming 30% v/v soln.	- Nil -
Water Content	3% Max.
