

## **PRODUCT INFORMATION**

### **RUSTNIL 7T(WS):-**

**RUSTNIL 7T (WS)** acts as an anti-corrosive protection fluid which is fully washable with water.

**RUSTNIL 7T(WS)** can be used as a concentrated anti-rust protective or can be used by diluting in water.

The working concentration for final customers varies according to the application and the length of protection required, between 1 % and 25% when diluted in water.

This range of water-soluble anti-corrosion products acts effectively against the corrosion of:

- Ferrous metals
- Galvanised wires
- Bulk parts or coils of copper and copper alloys.

**RUSTNIL 7T(WS)** soluble oils are usually applied by spraying or immersion.

#### **Product Benefits:**

- Economic gains: highly concentrated formulations
- Good protection against corrosion
- Residual protection films can be fine, very fine or invisible
- The working concentration allows the characteristics to be adapted to usage

Agreeable to use, this range of soluble oils also contributes to improvement of working conditions, in particular in terms of health and safety.

**RUSTNIL 7T(WS)** is free from Nitrite, Barium, formaldehyde, Borom & VOC (Volatile Organic Compounds)

**RUSTNIL 7T(WS)** is recommended for temporary indoor protection of in process machine parts for around 1 month.
